No. 20SA, 2" Jaws, 4½ lbs., as described \$12.20
 No. 20S (No Steel Anvil) 10.40
 (With Smooth Jaws Same Price)

At a recent test performed by the Armour Research Foundation at Chicago, a 4" vise opened to over 4½" stood a pressure load on the jaws of 7,500 lbs. The nut and spindle took a load of 22,000 lbs. before disabled. The highest pressure applicable by man is not in excess of 2,000 lbs. These figures induce us to extend our GUARANTEE TERMS TO FIVE YEARS.
